AR-200/AR-400

Accelerometer Data Logger Device

Features:

- 2 or 4 simultaneous, 16-bit resolution ADC
- Support 2 or 4 IEPE input, and built-in 3mA excitation current
- Sample rate: 50kHz, 100kHz, 125kHz(AR-200) & 200kHz(AR-400)
- Max. Recording time: 120 seconds
- Dynamic range: +/- 10V
- Flexible trigger modes: push button trigger, schedule trigger, analog threshold trigger, digital input trigger and utility remote trigger
- Supports 4 to 32 GB micro SDHC type flash
- 2-Ch DI and 1-Ch Power Relay supported
