

Solution for self-powered AC current and temperature measurement

- Temperature accuracy 2 Celsius degree, Current accuracy 3.5%
- Perfect for applications require measuring signal change and trend variation
- Built-in Li-ion battery charged by CT, no external power supply required
- Maximum 10-second working duty
- Suited for predictive maintenance & big data analysis
- Flexible and expansible system architecture
- Wireless communication interface to reduce cost for large-scale deployment

Wireless data concentrator

iWSN-2200

Wireless data acquisition module

iWSN-1110X

Function expansion module

iWSN-750 series iWSN-757 series iWSN-164 series
